DETAILED ACTION

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance:

Wood et al., describes a medical ultrasonic diagnostic imaging system that is capable of being accessed over data communication networks such as the Internet. Miller et al., describes an ultrasonic diagnostic imaging system with a digital video recorder that can store recorded data on nonvolatile digital storage media, including a hard disk. Ali et al., describes a computed tomography system that allows viewing on a user interface screen of a diagnostic system, and Kerby et al. describes a medical diagnostic ultrasound imaging system providing for storage of an ultrasound image in a hard disk that also can be transferred to a workstation via an external storage media or a network.

The combination of Wood et al. with any of Miller et al., Ali et al. or Kerby et al. does not describe or suggest a method wherein the removable medium on which the data is stored also includes an embedded view. The prior art references require a separate viewer or user interface. Accordingly, the combination of Wood et al. with any of Miller et al., Ali et al. or Kerby et al. does not describe or suggest a method, an user interface and computer readable medium as recited in claims 1, 10, 18 and 23. Based on the above observations, claims 1 and 3-25 are allowable.

Conclusion

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
